

GeeksforGeeks - Session 4 - HomeWork

Task

You are supposed to build a web page for the Ice Cream shops at Jurassic Park. So we will have a Jurassic Park logo with a navigation bar containing three links - About Us, Our Works and Contact Us. The header is a dark header and it's the same colour as the footer.

It is a two columnar layout with a sidebar navigation with the same links as in header. We have a main content with **Ice Cream Shops at Jurassic Park** with a couple of paragraphs. There is one more logo for the shop in the middle that's centrally aligned.

[About Us](#)[Our Works](#)[Contact Us](#)

Technical Details

Expectations

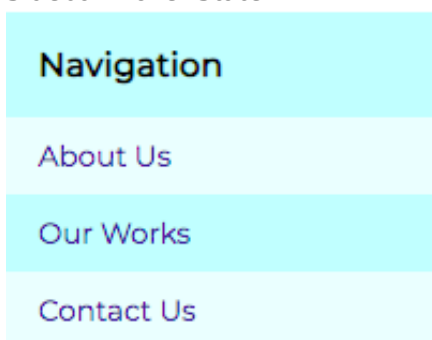

Here are the details that are expected to be followed in this home work.

- Generic Stuff

- We are using border box layout for all the elements.
- Whole body has a font of `Montserrat` and a default font size of `10pt`.
- Headers
 - The header and footer has a slightly dull black background that is web-safe.
 - The logo has a height of `65px` and it is linked as well.
 - The primary navigation bar is pushed right side.
 - The nav items have slightly rounded borders of `5px`.
 - There's a hover effect as well, displayed below.
- Main Content
 - There's a side bar spanning for `30%` with a new background colour.
 - The heading is with a new background colour as well.
 - The list items have a different colour and their original background is transparent.
 - When the list items are hovered, you have the same heading background colour.
 - The main section spans for the rest `70%`.
 - The main section has a heading with the text `Ice Cream Shops at Jurassic Park`.
 - The paragraphs have a line height of one and a half line spacing.
 - The image is centrally aligned with no margins and has a maximum width of not more than `300px`.
- Footer
 - The footer has a slightly dull black background that is web-safe.
 - The paragraph is white in colour, centrally aligned with a single line spacing and no margins.
- Hover Effects
 - Navigation Hover State

- Sidebar Hover State
